

# FLEXIBLE AND FULLY-MANAGED

Eliminate performance issues and secure your network.

## MANAGED LAN

Your network is the brain of your business; it can't fail and it can't stop growing. Eatel's Managed LAN solution is a reliable, flexible network solution that gives you peace of mind and grows with you. Enterprise-grade networking equipment is configured, installed, and monitored by local technicians. Streamline your internal IT resources by relying on our skilled technicians for 24/7 monitoring and support. SSL VPN provides secure access to the network for remote employees.

## MANAGED Wi-Fi

Eatel provides hassle-free wireless connectivity for your workspace. Establish secure wireless connectivity in the workplace for employees, and separate public access for guests. Our scalable Wi-Fi solutions span from single to multiple access points, optimized for multiple simultaneous users in one location. Both indoor & outdoor access points are available to extend access to completely cover your business environment. Eatel's Managed Wi-Fi solution is installed and backed by local technicians and customer support staff.

### Available Packages:

- Bulk Managed Wi-Fi: monthly charge per room at location
- Access Point-Managed Wi-Fi: monthly charge per installed access point
